Office Action Summary	Application No. 10/814,323	Applicant(s) LAMELA ET AL.	
	Examiner Kevin Hurley	Art Unit 3611	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Applicant's election without traverse of the invention of claims 1-24 in the reply filed on 20 July 2006 is acknowledged.

2. Claims 25-28 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim.

Election was made **without** traverse in the reply filed on 20 July 2006.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 1-3 are rejected under 35 U.S.C. 103(a) as being unpatentable over Kim in view of Bamford.

Kim (see Fig. 3) discloses a skid steer vehicle comprising:

a chassis 102;

an engine mounted on the chassis;

left front and right front wheels independently and pivotally mounted to the chassis;

left rear and right rear wheels independently and pivotally mounted to the chassis;

Art Unit: 3611

a left side hydraulic drive motor 300;

at least two left side drive chains 128,130 operably coupled to the left side drive motor to drive the left front and left rear wheels;

a right side hydraulic drive motor 300;

and at least two right side drive chains 128,130 operably coupled to the right side drive motor to drive the right front and right rear wheels;

wherein the left side and right side motors are controllable to skid steer the vehicle

wherein the left side and right side drive chains are located outside the vehicle chassis;

wherein the left side and right side drive motors are mounted inside the chassis.

Kim discloses the use of chains instead of belts.

Bamford, see column 6 lines 1-8 discloses that belts can be used in place of drive chains as the two are equivalents.

It would have been obvious to one of ordinary skill in the art at the time the invention was made to replace the chains of Kim with belts, in view of Bamford, the two being art recognized equivalents.

Allowable Subject Matter

5. Claims 4-12 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

6. Claims 13-24 are allowed.

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The cited references disclose skid steer vehicles with hydraulic motor drive.
